

Implementing the Mental Capacity Act

As you will be aware, the Mental Capacity Act is due to come into force in full in October 2007.

We have been providing training to clients on the Act and have previously run sessions at our offices. However, now that the Code of Practice is available, and as the full implementation date approaches, we propose to run further sessions at our offices.

In order to gauge the level of interest in the Seminars, this email is being sent to all those who may be interested in attending a training session, particularly given the fact that our last session was over subscribed. We would not wish to disappoint potential attendees!

If you would be interested in attending one or more of the sessions set out below, please mark these on the form and fax it back to Samantha Hovey at RadcliffesLeBrasseur on 020 7222 6208 or e-mail:sam.hovey@rlb-law.com..

FAX BACK

Mental Capacity Act Training

I would be interested in attending sessions on the following:

Mental Capacity Act Overview – A basic session explaining the Content and implications of the Act (beginners level)

Implementing the Mental Capacity Act: considering the issues arising from implementation of the Act in October (intermediate Level: building on the foundations of the above course)

Please list below any topics on which you would find Seminars useful:
